AGRICULTURAL OUTLOOK CHARTS

1942

Charts for Local Outlook Meetings

The charts in this list have been selected as those best adapted for presenting graphically the economic background for the respective commodities. These charts have been simplified from year to year and have been brought up to date so far as data were available. Copies of these charts in the wall-size, 30 x 40 inches, will be made by the Bureau on order for 10 cents each on blueprint paper, or 20 cents each on black-line paper. The source of the data for keeping these charts up to date, if available currently, is indicated in the list.

Other charts or maps issued by the Bureau of Agricultural Economics not included in the "Outlook issues" of the Situation Reports or this list are supplied at 75 cents each on bromide paper, or \$1.25 mounted on cloth. The list of charts entitled "Agricultural Economics Charts," is now being revised and brought up to date, and copies will be available soon.
